On Having AIDS and being Sexual

3/6/98

Well the truth is I'm still sexually active, not nearly as active as I'd like to be but active nonetheless

Well the truth is that I do have sex with multiple partners, and on I have on a few occasions had multiple partners in the same place and @ the same time

3/3/12

I am afraid that my enemies,
if pitted with you in larger
portions than you're used to
overpowering, will test without
and will choke you.
So I search for the sharpest knives
I have, and, like upon discovering, shoot
them for peptea, which I am told is
[illegible] and powerful.
I feel you do not, and I think of
my BLOODIED offering [illegible]
it with flavored potatoes to make
me more appetizing and less
unsettling in your stomach.

3/3/98

I am afraid that my essence,
if shared with you in larger
portions than you're used to
swallowing, will lodge in your throat
and will choke you.
So I search for the sharpest knives
I can find, and upon discovery, discard
them for scalpels, which I am told cut
clean and precise.
I feed you first, small chunks of
my BLOODIED exposed flesh I sprinkle
it with flowery metaphors to make
me more appetizing and less
unsettling in your stomach.

3/13/18

I challenge you to define yourself as I continually remove more and more flesh to force you to ingest.

Group is started - We (Kevin, Tom, George, and I) got here @ 7:45 pm. Everyone is checking in - a man just walked in with Tom who looks to be white - this could potentially turn out be a problem if we don't watch it. Aside from the Pediatrician from Morehouse School of Medicine, there this other guy OK - this is going to be interesting.

Spring Fever is in the air, I can definitely feel it. A few new people are here, which is always good to hear from people outside of the core group. [The Urine of Pregant Women]

* Family / Relationships [Work issues] Lots of gratitude from Brother to Brother [ADDICTION] [Planning for the future MAIL order DRUGS = Newsletter]

The room is full -

Speaking to various groups about H/A/AIDS in churches & public schools - be wary, be aware, & be prepared for restriction. Do expect them to be resistant to and combative of issues surrounding Same Sex relationships. Interesting.

The most interesting part of the conversation was about an issue Ms. C.H.I.C. played on the floor prematurely - (Literally don't know what Ms. Thing is/was)

The discussion was around placing materials in the club to be accessible to Brothers who

I would like to see a conversation between a cross-section of positive and negative brothers with a positive and a negative facilitator.

not receive them anywhere else. Putting a Brother Back to Back pamphlet and Cards.

Several of the Children were extremely paranoid about the group being infiltrated by people coming to see who is infected, and ~~they~~ ~~said~~ one person even went so far as to say that there would be a stampede of Children in the door. I have to say there were 2 comments that made the night for me; one from an older member Sam, who challenged Ralph and said "How dare you be so selfish" as to not allow other Brothers out there the same opportunity for healing you were allowed when you walked into that group." "Yes there will be times when we have to share this space with people we don't like, but they have as much right as we to be supported by Brothers ~~working~~ dealing with the same challenges.

The new Brother said that he walked in on a conversation about acceptance and how the larger black Community & White, tend to overlook, and disregard us, which leads to people continually becoming infected. So why don't we take a look at their behavior, and not immulate them - we can be more responsible

FOR WOMEN, BY WOMEN

The treatment needs of HIV+ women are special. Because of this, we have created this program to provide understandable information and answers to your questions about treatment. This program is an information exchange. You are encouraged to bring questions for the presenters. The topics covered have been suggested by women living with HIV and their care providers.

A delicious, healthy continental breakfast, full lunch and snacks will be provided. Vegetarian meals will also be available.

CPS will reimburse for childcare expenses and provide transportation tickets for those in need.

Please call by May 14th, if you need child care or transportation assistance.

Our moderator for this program is Lillian Thiemann, Board Member of the PWA Health Group and Betances Clinic in New York. Ms. Thiemann has also been living with HIV for the past 12 years.

This program was designed by women like you.
